PROFESSIONAL SUMMARY

MBA (HR & Banking Finance) professional with experience in Administration, Liaison, Coordination, and Project Operations in the renewable energy sector. Skilled in coordinating with senior administration, site teams, contractors, vendors and external stakeholders; managing employee attendance, project vehicle coordination and administrative records; maintaining project documentation; reviewing MRC reports; and preparing Service Entry Sheets (SES). Also experienced in basic MIS reporting and MS Excel, with currently developing practical knowledge of SAP MM, including procurement and Procure-to-Pay (P2P) processes.

PROFESSIONAL EXPERIENCE

Admin / Liaison & Coordinator

Mar 2026 – Present

Solar Energy Corporation of India (SECI)

Dhar, Madhya Pradesh

Project: 200 MW Grid-Connected Ground-Mounted Solar PV Power Plant, Dhar, MP

- Managed employee attendance records and coordinated with employees/site teams for attendance-related requirements.
- Handled project vehicle coordination and follow-up, including vehicle availability, status tracking and record maintenance.
- Maintained administrative documentation and records and ensured timely updates and follow-up with concerned teams.
- Coordinated with local authorities, contractors, site teams and external stakeholders for day-to-day liaison and project activities.
- Handled day-to-day coordination and administrative activities related to project operations.
- Maintain and manage project-related records, documents and supporting information using MS Excel.
- Review and check MRC (Material Receipt/related project reports) and coordinate with concerned teams for required information and documentation.
- Prepare and process Service Entry Sheets (SES) for service-related activities and coordinate for verification/processing.
- Coordinate with vendors/contractors and concerned teams regarding service-related documentation and work status.
- Support project execution, site coordination and follow-up activities.
- Prepare/check basic MIS reports and summarize project-related information as required.
- Currently learning SAP MM with focus on procurement and P2P (Procure-to-Pay) processes.
